

Ooze Tube - 25 gal - Ea R8194

Details

The Ooze Tube provides a control water drip with the use of emitters for the establishment of trees in under-irrigated sites. Growth is promoted beginning with a heavy water output, like rain, then gradually decreasing as the tube empties. Additional emitters may be added as needed. Connect tubes together for trees 5" or larger. Use on any tree or evergreen. Emitters and stake included. Refill 15 gallon every 2 weeks. Refill 25 gal. every 3 weeks. Reusable. Green.
