

Quick Dam Water Curb - 10" x 5' - 1/Bag

RODWC105

Details

Quick Dam Water Curbs are long cylinder tubes made of durable 10 mil plyurethane that can be filled with water to act as a temporary barrier to control and divert flood water. Protects up to 6-1/2" or 10" in height. Dual chambers prevent rolling out of position. They can be filled, drained, stored, and reused, as needed, year after year for ongoing flood needs. Strong enough for an automobile to drive over. Compact and lightweight. Easy to use, just fill with water. Black. 10" x 5'.

- Fill and drain with water as needed
- Compact and lightweight
- Store empty and fill on site as needed
- Dual chambers prevent rolling out of position
- Durable and chemical resistant 10 mil poly
- Reuable year after year
- Use for doorways, garages, sports fields, golf courses and much more!
- Holds 175 gallons
- 1,400 lbs filled weight

Specifications
